Schema

The schema for the library database is derived from (but NOT the same as) the library schema in the textbook (Figure 6.6, page 204). The *actual* schema used for this project is provided below. You are permitted to modify or augment this schema provided that your system (a) is backwards compatible with the given schema, and (b) adheres to the written requirements. As long as your system supports the documented functionality, you may add any features you deem useful.

BOOK

Isbn	Title

BOOK_AUTHORS

Author_id	Isbn

AUTHORS
